

Dear parents,

I hope you are well and that you and most importantly your children are enjoying our academy on Saturday mornings.

After each Saturday, our academy coaches meet with the academy coordinators to review and improve the following Saturday's session.

We have found the roll call difficult and obviously that is vitally important for contact tracing purposes so we are making a change for this Saturday's session.

Each parent needs to bring a piece of paper with your child's name, date of birth and your mobile phone number on it. You will put the piece of paper in the labelled box for you child's age group. There will be no entry without this piece of paper. We will have pens and paper available for you to fill in outside the entrance if you forget your own but those with the paper filled from home will get in first.

Please look at the attached map of the astro as there will be slightly different entry and exit points this Saturday. No parents apart from the little eagle parents will be allowed inside the fence of the astro from this Saturday on. Little eagle parents are to maintain social distancing both inside and outside the astro with face masks strongly encouraged. Parents outside the astro are on public property but again we ask that parents waiting to collect their children maintain social distancing protocols and wear face masks. There have been 22 cases in Galway as I write this on Wednesday and so it is incumbent on us all to do our social duty.

Thank you for your cooperation in this matter.

Kindest regards,

John Reilly, Club Chairman.
